

## Terms of Service for Dillons Cabernet

ASHS Registration No: C2-230151

For 2021/2022 breeding season – 01/09/2021 until 31/01/2022

1. A non-refundable booking fee of \$220 inc GST is payable to **M.C Dillon BSB: 817 001 Acct No: 400583770** upon return of registration paperwork. This fee will be deducted from the \$1100 inc GST Service Fee
2. Mares will be served at Killarney Vets (KV) for a standard fee of \$310/cycle. Please refer to included Breeding Program for further information.
3. Agistment will be charged at \$14+/day unless otherwise stated (See KV information). This fee will cover transportation of Mare to KV. It may be necessary to add a surcharge for the sourcing and supply of feed; this will be discussed prior to implementation if the need arises. If the mare is deemed in a condition not conducive to breeding (e.g. BCS <3, maiden mare >12yo, etc.) by Dillons Stock Horses or KV, additional fees will apply. This will be discussed prior to implementation. Pre-arrival scanning of mares for ovulation and cycle information or knowing when a mare is coming into season and booking accordingly can help reduce agistment costs.
4. Whilst every care and reasonable effort will be taken to settle and look after a mare and any foal at foot, responsibility for any accident, sickness or death of any mare or foal will not be taken. KV will be contacted in any such event and the Mare owner will be liable for all associated charges.
5. All fees are to be paid prior to the collection of a mare.
6. Mares are to be from a cattle tick free area/treated for cattle tick prior to arrival.
7. Mares are to be in good paddock condition, with no hind shoes – additional fees may apply if this term is not met. Mares that are not halter broken will not be accepted.
8. The Mare Owner is entitled to a live foal guarantee, whereby if the foal does not stand and suck, or dies of natural causes in the first 7 days, the Mare Owner will be entitled to a rebreed the following year. This guarantee will only apply if a written statement from a licensed veterinarian is supplied within seven days. There will be no further obligation if the mare fails to produce a live foal in the return service year. The live foal guarantee ceases if the mare is sold or transferred, becomes unsuitable for breeding or the mare dies. The live foal guarantee will also cease if Dillons Cabernet should die or become otherwise unfit for service.

9. Should a mare fail to conceive the booking fee, agistment and veterinary fees accrued will be payable prior to collection of that mare.
10. If Dillons Cabernet or a booked mare should die or be otherwise unfit for service prior to the first service, the booking fee will be refunded.
11. Receipt of booking fee and delivery of mare will be deemed as acceptance of these terms.
