## DILLONS CABERNET STANDARD NATURAL BREEDING PROGRAM

On arrival your mare will be scanned to determine what stage she is at in her breeding cycle, ideally she will be setup at home to arrive coming into season to reduce her time with us and therefore agistment costs. If problems are detected that may impact her chances of conceiving these can be discussed and a plan with an estimate of costs will be provided.

During your mare's stay at Killarney Vets she will be cared for as one of our own. On average, your mare will stay with us for 3-6 days per cycle. Depending upon her ability to mix with others a single yard or communal paddock will be chosen. Wet mares will be agisted individually. We can rug and give your mare any hard feed or supplement that you provide. We will feed your mare quality lucerne hay to ensure that she is maintained in good condition to maximise her chances of fertility.

Our standard natural breeding program fee includes all scans up to and including the 14 day scan, as well as sedation, prostaglandin injections, ovulation medications and oxytocin injections, if required. Handling of your mare and the stallion for teasing and service is also included. Additional hormone medications, tests and uterine treatments are an additional cost, however this will be discussed with you first should they be recommended.

We recommend that your mare be vaccinated against tetanus, strangles and Hendra prior to arrival. Worming and hoof trimming prior to arrival are also recommended.

Standard natural breeding program fee for 2021 season is \$310/cycle

Agistment will be charged, in addition, at a daily rate of \$25.00.

Our guarantee to you - should your mare fail to conceive after 2 cycles, we will perform the third cycle FREE (excl. agistment), providing we haven't identified any issues that would class your mare as a problem breeder, in which case we will discuss with you our diagnosis and recommendations to help maximise the chances of getting your mare in foal.

Please complete the form overleaf

MARE ADMISSION FORM

Name of mare owner: \_\_\_\_\_

Postal address: \_\_\_\_\_

\_\_\_\_\_ Postcode: \_\_\_\_\_

Best contact number: \_\_\_\_\_

Email address: \_\_\_\_\_

Name of mare: \_\_\_\_\_ Brand: \_\_\_\_\_

Mare registration details (society/ID number): \_\_\_\_\_

Colour: \_\_\_\_\_ Year of birth: \_\_\_\_\_ Breed: \_\_\_\_\_

Mare status (please circle): maiden / dry / foal at foot

# Live foals: \_\_\_\_\_ # Still foals: \_\_\_\_\_

Fail to conceive on last breeding? YES / NO

Reproductive tract infection? YES / NO

Is your mare caslicked? YES / NO

Mare health status:

*Please provide last date performed or administered. Write N/A if not done or unknown date.*

Tetanus vaccination: \_\_\_\_\_ Strangles vaccination: \_\_\_\_\_

Hendra vaccination: \_\_\_\_\_ Worming: \_\_\_\_\_

Farrier: \_\_\_\_\_

Special instructions/things we should know about your mare:

\_\_\_\_\_

I understand and accept the following:

*I have been advised as to the nature of the procedures and the risks involved. While all reasonable precautions and due care will be taken to ensure the safety of your mare, veterinary procedures, agistment and live cover have their inherent risks that cannot be completely eliminated that can lead to illness, injury or death. Should an illness or injury occur we will treat your mare appropriately and make immediate contact to discuss the problem, prognosis and estimate of fees. I realise that results cannot be guaranteed and further treatment options may be necessary however understand that these will be discussed and consented to prior to commencement. I assume financial responsibility for all charges incurred including that through illness or injury, should it occur. I understand that payment is required before the mare returns home.*
